

https://data.HRSA.gov Web Services Developer Guide

The web service endpoint is:

<https://datawarehouse.hrsa.gov/HDWDataServiceExternal/HdwDataWebServiceExternal.asmx?WSDL>

The HDW web services provide data for two data sets:

- **Health Center Data**
- **Ryan White HIV/AIDS Medical Providers**

Health Center Data Service Detail

Two web methods are available for Health Center Data: **FindHealthCentersByArea** and **FindHealthCentersAroundALocation**. The parameters for **FindHealthCentersByArea** web method are:

- StateFIPSCode – State FIPS code
- CountyFIPSCode – County FIPS code
- ZipCode – ZIP code
- WhereClause – Additional filter for the results
- Token – Organization token provided by HDW

The parameters for **FindHealthCentersAroundALocation** web method are:

- Longitude – Geographic coordinate that specifies the east-west position of a point on the Earth's surface
- Latitude – Geographic coordinate that specifies the north-south position of a point on the Earth's surface
- SearchRadiusInMiles – Search radius in miles
- MinimumRecordCount – Minimum number of health centers requested
- ExpandRadiusbyMiles – Expand search radius in miles; used if number of health centers found within the provided search radius are less than the minimum number of Health Centers requested
- maxRadius – Maximum search radius in miles
- Token – Organization token provided by HDW

Web Services Terms of Use

The Memorandum for the Heads of Executive Departments and Agencies (<https://www.gpo.gov/fdsys/pkg/FR-2009-01-26/pdf/E9-1777.pdf>), issued by President Obama, mandated all federal agencies to be transparent with the public. Therefore, HRSA has made its de-identified transactional system data available via web services. All direct identifiers, as well as any characteristics that might lead to identification, have been omitted from the data.

Users can use the data for statistical reporting and analysis only. By using these data, you signify your agreement to comply with these requirements.
