## About the Health Center COVID-19 Vaccinations Among Racial and Ethnic Minority Patients Dashboard

Using data from the weekly [Health Center COVID-19 Survey](#), this dashboard provides a high-level cumulative view of COVID-19 vaccinations nationally; by state, territory, and freely associated state; and among patients identified as racial and ethnic minorities. <sup>4</sup>Data includes vaccinations administered by health centers through the Health Center Vaccine Program and from allocations that health centers receive from state and local health departments, as well as health center patients vaccinated through other means.

### On this dashboard, you can view:

- Total vaccinations nationally.
- Percentage of vaccinations among patients identified as racial and ethnic minorities nationally.
- Total vaccinations by state, territory or freely associated state.
- Percentage of vaccinations among patients identified as racial and ethnic minorities by state, territory, or freely associated state.

The dashboard is updated each week using data from Health Center COVID-19 Survey questions:

- By race and ethnicity, how many patients **have initiated** (1<sup>st</sup> of 2 doses received) their **COVID-19 immunization series in the last week?**
- By race and ethnicity, how many patients **have completed** (2<sup>nd</sup>, or only, dose received) their **COVID-19 immunization series in the last week?**

Also see COVID-19 dashboards on [operations](#) and [testing](#) by race and ethnicity.
