About the Health Center COVID-19 Survey Operational Capacity Dashboard

The Health Center COVID-19 Survey Operational Capacity Dashboard provides the most recent data as related to COVID-19 testing capacity, virtual visits, temporary site closures, and staff unable to work due to COVID-19.

On this dashboard, you can view:

- Percent of health centers with testing capacity for COVID-19 by state.
- Percent of health centers with walk-up/drive-up testing capacity for COVID-19 by state.
- Average percent of health center visits conducted virtually, regardless of service type, by state.
- Percent of health centers with delivery sites temporarily closed due to COVID-19 by state.
- Percent of health center staff unable to work due to COVID-19 by state.
