Health Professional Shortage Areas (HPSA) - Primary Care

HPSA Scores are developed for use by the National Health Service Corps to determine priorities for the assignment of clinicians. Scores range from 1 to 25 for primary care and mental health, 1 to 26 for dental health. The higher the score, the greater the priority.

HPSA Scores are color-coded as follows:
- **1 - 13**: Light green
- **14 - 17**: Medium green
- **18 and above**: Dark green
- **Non-HPSA**: White

Scale bar only applies to contiguous U.S.
