## Benchmarks to Population Indicators

Welcome to the **Health Center Program GeoCare Navigator** Benchmarks to Population Indicators! Use the tables below to identify national and state level benchmarks for a number of population indicators.

## Benchmarks for Population Indicators

The following lists give national and state level benchmarks for a number of population indicators. These data points can be found on the map via the Data Table or the Population & UDS Layers tools at the ZCTA level. We recommend that when using the Data Table or the Population & UDS Layers tool and selecting Population Indicators, you use reasonable state and national benchmarks as comparison points to find areas that may have high need.

### American Community Survey (ACS) Indicators

| ACS Indicators       | Poverty (%) | Low-Income (%) | Not Employed (%) | Households with Limited English Proficiency (%) | Less Than High School Education (%) | Disability (%) | Uninsured, Est. (%) |
|----------------------|-------------|----------------|------------------|-------------------------------------------------|-------------------------------------|----------------|---------------------|
| U.S.                 | 12.6        | 29.2           | 39.9             | 4.2                                             | 11.1                                | 12.6           | 8.8                 |
| Alabama              | 15.8        | 35.1           | 45.3             | 1.2                                             | 12.6                                | 16.1           | 9.7                 |
| Alaska               | 10.4        | 24.9           | 37.3             | 2.2                                             | 6.7                                 | 12.4           | 12.2                |
| Arizona              | 13.5        | 31.7           | 42.8             | 3.7                                             | 11.7                                | 13.2           | 10.7                |
| Arkansas             | 16.0        | 38.4           | 44.7             | 1.6                                             | 12.3                                | 17.6           | 8.7                 |
| California           | 12.3        | 28.5           | 40.2             | 8.5                                             | 15.8                                | 10.6           | 7.2                 |
| Colorado             | 9.6         | 23.6           | 34.6             | 2.4                                             | 7.6                                 | 10.8           | 7.9                 |
| Connecticut          | 10.0        | 22.5           | 38.0             | 5.2                                             | 8.9                                 | 11.4           | 5.2                 |
| Delaware             | 11.4        | 25.7           | 41.3             | 2.4                                             | 8.9                                 | 13.3           | 5.8                 |
| District of Columbia | 15.4        | 26.2           | 33.6             | 3.2                                             | 7.8                                 | 11.2           | 3.4                 |
| Florida              | 13.1        | 32.3           | 43.7             | 6.9                                             | 11.0                                | 13.4           | 12.6                |
| Georgia              | 13.9        | 32.2           | 39.9             | 2.7                                             | 11.8                                | 12.4           | 13.1                |
| Hawaii               | 9.5         | 21.6           | 38.0             | 5.6                                             | 7.3                                 | 11.4           | 4.0                 |
| Idaho                | 11.4        | 31.3           | 39.3             | 1.9                                             | 8.8                                 | 13.7           | 10.2                |
| Illinois             | 11.8        | 26.9           | 38.8             | 4.3                                             | 10.1                                | 11.3           | 7.0                 |
| Indiana              | 12.5        | 29.8           | 39.1             | 1.7                                             | 10.2                                | 13.6           | 8.0                 |
| Iowa                 | 11.0        | 27.3           | 35.7             | 1.8                                             | 7.2                                 | 11.9           | 4.9                 |
